### Program Description

RISE Behavioral Health provides mental health services and prevention services throughout the Denver area. Services are provided either in-office or within the community including at-home, schools, group homes, and more. Office-based services and programs are delivered at our behavioral health center located at 800 Grant St. Suite 335. Therapeutic services are funded through contracts with Division of Human Services, Division of Youth Services, Medicaid, and private funding sources. Services are provided by highly trained mental health staff who specialize in working with youth and families.
